BRICKS.—H. DODD is enabled to offer his BRICKS, which are of good quality, at the following low prices; and as his fields are only a quarter of an hour's walk from the City, H. D. earnestly requests purchasers will favour him with a visit, in order to inspect his stock and to judge for themselves:—

Marlo cutters	34s. Per Thousand.
Yellow seconds	32s. "
Pale seconds	30s. "
Paviors	45s. "
Pickings	70s. "

Delivered within five miles of the fields.
Marlo place, half-washed stocks, and place bricks, at equally low prices. These bricks are sound, well burnt, and unusually free from defects; a very large proportion of the stock being suitable for external facing.—Apply to HENRY DODD and CO. at the Cemetery Gate, Hornsey Brick-fields, Grange walk, near the Necromancy Branch, Horsea. N.B.—Kent pit sand of approved quality constantly on sale, upon reasonable terms; this sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.

ORNAMENTAL TILING for ROOFS.—The Society of Arts awarded Mr. ROBERT BROWN a Medal for his improved Italian Tiles, and in the Great Exhibition of 1851 they were awarded a Prize Medal, and were the only Italian tiles exceptionally named by the Jury. These tiles have been used by Sir MARTIN BARRY, and other architects, and have met their marked approval; they have also received the approval of eminent men in most parts of Europe. The slight curve enables the lower tiles to be fitted closely together without mortar or cement. The horizontal indentation forms a perfect security against the driving rains; when on a building, they have the exact appearance of the most admired form of Italian tiling. The grey or green colour is burnt in, and is permanent. They are supplied at a stated price per square.
ORNAMENTAL PLAIN TILES, in great variety, made from the Surbiton clay, and also from the Staffordshire terro-metallic clay, at per square.
PLAIN GOTHIC RIDGE TILES, HOP and VALLEY TILES, and COPING BRICKS.
The GROOVED RIDGE TILE, for the reception of any varied outline of vertical ornament, was invented by Mr. Robert Brown, and for which invention he also received from the Society of Arts a medal. He now makes these tiles, of any desired colour, from the Surbiton clay, as also from the Staffordshire terro-metallic clay. He has lately devoted great attention to the varied conditions of form, so as to adapt them to the different periods of Gothic Architecture. The attention of architects is particularly invited to these ridge tiles of a green colour. They are supplied at a stated price per foot run. Mr. Robert Brown trusts that architects who consider the Grooved Ridge Tile worthy of introduction, will think it but fair and honourable that the inventor should supply them, provided he does so as cheaply and well as any other party. But should even this hope not be realised, he will still have the satisfaction of having been the inventor of an article which has led to a universal adoption.—Address, Nonsuch-park, Ewell.
TILE WORKS, SURBITON-HILL, SURREY.

TO ARCHITECTS, BUILDERS, &c.
ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS, executed in a first-rate manner, on reasonable terms, by J. MERRETT and SON, Modellers, &c. 48, Parker-street, Drury-lane. A splendid assortment of Corinthian, Ionic, and other Capitals; Centre Flowers, Balusters, Trusses, &c.; Enrichments and other Chimney Shafts.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, Nine Elms, London.

GEORGE and THOMAS EARLE, CEMENT MANUFACTURERS, HULL.
Light and Dark equal to any made.
Also, Manufacturers of PLASTER, MASTIC.
Importers of MARBLE and PORZOLANA.
Dealers in Slates, Slabs, Hair, Whiting, &c.

ROMAN and OTHER CEMENTS Manufactured by J. M. BLASHFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Terras and Portland Cements, English and French Plaster, Terra Cotta Chimney Pots, Traps, &c.
Manufactory, Mill Wall, Poplar; Depôts, Commercial-road, Lambeth, and Paddington-basin.

ATKINSON'S CEMENT, so long known and esteemed in London, for pinkering purposes, is a quick-setting cement that requires no colouring.—Sold exclusively by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster; and Sackville-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal use.—These well-known hard cements dry quickly, and can be painted upon within a few days. Made and sold by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate, and is not affected by frost. As a mortar for brickwork, it may be mixed with three to four parts of sand; and, for concrete, it will carry ten to twelve times its volume of sand and gravel.—Manufactured by JOHN BAZLEY WHITE and SONS, 17, Millbank-street, Westminster, and Sackville-street, Liverpool.

PORTLAND CEMENT, in Casks of Four Imperial Bushels QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILTON, at his Kiln and Premises, Fawcett-street, and Plaster of Paris Works, Faversham, Kent, at which places, or also at his Wharfs in London, 6, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Mill-wall, Poplar; St. Andrew's Wharf, Earl-street, Blackfriars; or Middle Scotland-yard, Westminster. Manufacturer of Keenes, Lias, and Mastic Cements, French and English Plaster, &c.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs. ROBINS and CO. submit the attention of their friends and the public to their superior Cement, confident that the great improvement in the manufacture thereof during the present year will insure to them a continuance of that patronage with which they have so long been favoured.—Orders received at the Works, and at Great Scotland-yard, Whitehall. March, 1852.

6, South Wharf, Paddington.
PORTLAND CEMENT.—CHARLES RICHARDSON has the honour to call attention in introducing to the trade the above superior CEMENT, being of uniform colour and quality in desideratum never before attained in Portland Cements. It possesses extraordinary cementitious qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack; combined with which its eminent hydraulic properties stamp it at once as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq. at his Works, near the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

PATENT PORTLAND and ROMAN CEMENTS.—WISKFIELD, BELL, and CO. of East Greenwich, Kent, having now completed some heavy contracts, are prepared to execute orders to any extent for either of the above Cements. Many highly respectable references can be given where their cements have been successfully used. Orders received and executed either from their works at Greenwich, or their wharfs, Lindsey Wharf, Chelsea, or 34, Wharf, Narrow road, Paddington.—Agents at Southampton, Mr. GEORGE SHARP, Union Wharf.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Sheppy Stone, but is much better adapted to engineering works, from the rapidity with which it sets and hardens under water. It has been long used at the Great Breakwater at Cherbourg; in a similar work at Alderney; and at Dover New Pier, to unite the masonry. The foundations of the centre pier of the Tubular Bridge at Menai Straits is laid in Medina Cement. A new groyne at Sandown Bay, Isle of Wight, has been constructed of no other material but this cement and shingle. The work extends 300 feet into the sea, and is exposed to the most violent gales of the Channel, in a position where every former construction had been repeatedly washed away. The inconvenience of the varied qualities of Roman Cements are superseded by the use of this improved manufacture.
CHAS. FRANCIS and SONS, Nine Elms, London; or West Medina Mill, Newport, Isle of Wight.
Agent for Southampton, H. L. PLUDER, American Wharf.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.
As used at St. George's Hospital, Hyde Park Corner.
JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing great advantages over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF.—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. One coat will cover 200 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.
JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its establishment for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities, may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleansed with a brush and water.
The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agents, PHILIP HARE and Co. on the Ground Floor, Upper Thames-street. A liberal allowance to wholesale dealers.
